PROFESSIONAL EXPERIENCE

Professional Portfolio / Website

My professional portfolio website is available at JordanBenge.com

Co-Founder, Lead Developer / SocialPnt Technologies, LLC - Oxford, OH   *04/2017 - Current*

SocialPnt is a hybrid social-media app, built using the Ionic framework, Node.js, Objective-c and Swift. It connects users through geo-location, to see what is happening around them. SocialPnt leverages a number of native api's such as: the native phone web view, file transfer, location services, multi-media and more.

- Collaborated extensively with the product team to tightly define the technical scope and feature set of the minimum viable product to get to market as quickly as possible.
- Solely ran the project development phase from start to finish, including the implementation of Firebase Cloud services, Branch.io deep linking, and Algolia real-time search.
- Extensively profiled and optimized the solution on various mobile platforms to maximize performance under simulated load.
- Solely designed, developed, and implemented a complex JSON database architecture, powered by Google Firebase.

Application Software Developer / University of Cincinnati, Office of Research - Cincinnati, OH   *01/2016 - 01/2017*

- Completely responsible for the design and development of a full website redesign & it's Web-based software solutions.
- Integrated Tableau data visualizations and analytics for real-time reporting software.
- Created automated review software that decreased review mistakes by 50%

Junior Software Developer / Athletic Performance Tools, LLC - Oxford, OH   *05/2014 - 09/2014*

- Produced efficient codes based on specifications.
- Reviewed, analyzed, and recommended software solutions that would be an ideal fit for project specifications.
- Prepared technical architecture proposals for enhancements and integration of existing third party software systems.
- Handled special projects designated by the senior developer.
